House of Brick in 2016 - A Retrospective on a Pivotal Year

by Nathan Biggs, CEO

With the end of the year approaching, I thought that I would take some time to reflect on some key industry events and trends that we have experienced this year at House of Brick. Next week, I will provide an opinion on what we are anticipating for 2017. The thoughts and opinions that I share have been formed as House of Brick has continued to grow our influence in the industry.

We have now provided consulting services to over 25% of the companies on the Fortune 500 list. We have also assisted state and local governments and higher education organizations in well over half of the states in the U.S. In addition, our global reach expanded considerably in the past year, with significant consulting engagements in Canada, Latin America, Europe, and the Middle East. Presented by Jim Hannan, Principal Architect and Chris Vacanti, Senior Consultant | Recorded October 19, 2016 | 57 minutes | [Watch Now](#)

Oracle on VMware in the AWS Cloud

VMware and AWS Announcement May Crack Open the Window of Opportunity

by Nathan Biggs, CEO

Over the past two years, we at House of Brick have seen a sea change in the attitudes of companies worldwide toward virtualizing Oracle technology. Whereas virtualizing Oracle on VMware used to be something only the fearless undertook, it has now become a best practice. I would like to think that House of Brick had a hand in the momentum shift with our work in the industry. [Read More](#)
