

## OPSCOMPASS ACQUISITION - FAQs

House of Brick Technologies is now a subsidiary of OpsCompass, an Omaha-based leader in Cloud Security Posture Management.

### WHO IS OPSCOMPASS?

OpsCompass, an Omaha-based leader in Cloud Security Posture Management, offers enterprise software that drives operational control, visibility, and security in and across cloud platforms including Azure, AWS, and Google Cloud.

### HOW WILL THIS EXPAND THE SOLUTIONS OFFERED?

OpsCompass will add House of Brick's specialized AWS, VMware, and Oracle SaaS intellectual property to their existing cloud monitoring tool set. House of Brick will expand their offerings to include application modernization, and custom application development.

### DOES HOB PLAN TO ADD ADDITIONAL STAFF?

Yes. While the number of staff will remain constant in the short term, future plans include adding staff.

### HOW DOES THIS CHANGE HOW I ENGAGE WITH HOUSE OF BRICK?

The House of Brick brand will be maintained for the professional services division of OpsCompass, Inc. and Nathan Biggs will continue to lead the House of Brick team as senior vice president of the division.

While bringing these organizations together offers a number of long-term strategic advantages, how you work with us on a day-to-day basis remains the same.

### IS THERE ANY IMPACT ON MY EXISTING AGREEMENTS AND/OR CONTRACT WITH HOB?

House of Brick will function as a separate division, with no changes to existing contracts and agreements.

### WILL I BE ABLE TO WORK WITH ALL OF THE SAME HOB STAFF MEMBERS?

With 100% retention of staff, you will continue to have access to the same outstanding team with whom you currently work.

### DO YOU ANTICIPATE ANY ADDING ANY NEW SERVICES IN THE SHORT TERM?

House of Brick remains committed to providing outstanding services to our clients, with plans to strengthen our offerings by bringing additional resources and services to bear for your organization.

In the coming months, additional staff and resources will enable us to further enhance our cloud expertise, and provide new services including application modernization and custom application development.
